

The FAIRtax Prebate Factsheet

Under the FAIRtaxsm, all Americans consume what they see as their necessities of life free of tax. While permitting no exemptions, the FAIRtax (HR25) provides a monthly universal prebate to ensure that each family unit can consume tax free at or beyond the poverty level, with the overall effect of making the FAIRtax progressive in application. There is no marriage penalty as the couple gets twice the amount that a single adult receives.

While everyone pays the same tax rate at the cash register, the prebate results in effective tax rates (annual taxes paid divided by annual spending) that increase as the level of spending increases – a progressive tax rate structure. For example, a person spending at the poverty level (\$34,840 for a family of four) has a 0% effective tax rate. That same household will have a federal tax burden of 2.9% of their income under current law.
